

Preschool Crafts

RAFFY GIRAFFE PUPPET

Materials:

head and neck of giraffe traced onto construction paper or regular paper
5 lb. paper bag for each student
crayons
glue
scissors

Here's How:

- Cut out giraffe pieces before class.
- Let the child color the giraffe.
- Help the child glue the head of the giraffe to the bottom of the paper bag.
- Help the student glue the neck of the giraffe with a small portion under the bottom of the bag as shown in illustration.
- The child will play with the giraffe puppet and retell the Bible story.

This craft is great for both the Noah's Ark or the Creation themes.

If time and resources are limited you may choose to only use the top part of the puppet. Also if the children are able to use scissors you may have them cut out their own puppets.
